I. COMMENTARY AND ANALYSIS

BACKGROUND AND OVERVIEW

One of the world's great research institutions, Princeton University seeks to achieve the highest levels of distinction in the discovery and transmission of knowledge and understanding. Conducting cutting-edge research and maintaining an unparalleled commitment to teaching are activities central to the University's mission.

The health of Princeton's research enterprise is vitally important to the University's success. The superlative quality of research at Princeton is reflected in its ability to attract a significant and growing amount of extramural funding, even in the hypercompetitive funding environment of recent years. Such sponsored programs account for about **15%** of the University's total operating budget, and **sponsored programs represent a significant portion of overall research expenditures at Princeton.**

Sponsored research expenditures for Princeton's main campus totaled **\$328M for FY2024**. The **Princeton Plasma Physics Laboratory (PPPL)**, a U.S. Department of Energy national laboratory for plasma physics and nuclear fusion science managed and operated by Princeton, **recorded an additional \$197.7M in sponsored research expenditures during the same period.**

Notes about FY 2024 Annual Report

- 1) All awards with activity during the FY are included in the count of awards.
- 2) Charts and Tables show expenditures from Prime/Flow-through sources.
- 3) The expenditures section shows expenditures by the Project Owning Department.

We also recommend using the Tableau site: <https://tableau.princeton.edu/> which has expenditure data that is included in this report, along with Proposal and Award information, which also represents key metrics in the Princeton research enterprise. Note that the Tableau site is restricted to certain Princeton audiences.

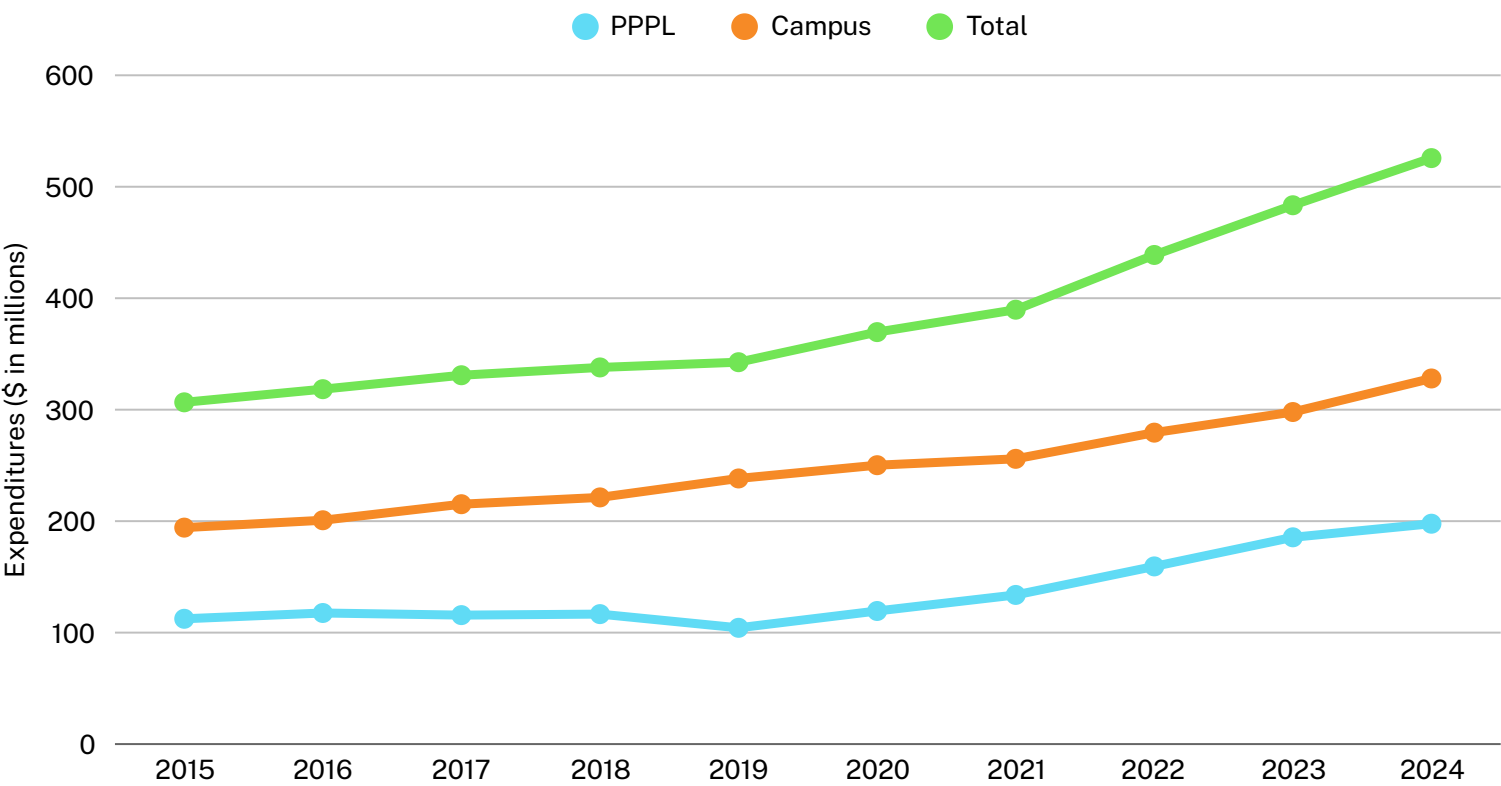

Last, the National Science Foundation's Higher Education Research and Development (HERD) Survey website is a helpful source of research expenditure-related data at research intensive universities across the U.S. (including Princeton), updated annually: <https://www.nsf.gov/statistics/srvyherd/>

TOTAL EXPENDITURES

The total of FY2024 sponsored research expenditures for the University and PPPL combined was **\$525.7M**, an increase of **8.8%** over the previous fiscal year’s total of **\$483.4M**. University main campus expenditures increased 10.1% between FY2023 and FY2024; during the same time period, PPPL's expenditures were up by 6.6%

History of Sponsored Research Expenditures

	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024
PPPL	112.4	117.6	115.7	116.6	104.3	119.4	133.8	159.4	185.5	197.7

Total	306.6	318.4	330.9	337.9	342.6	369.6	389.7	438.8	483.4	525.7

MAIN CAMPUS

Breakdown of Expenditures (Excludes PPPL)

Direct Costs Indirect Costs Equipment/Facilities Training Costs

	2020	2021	2022	2023	2024
Training Costs	11,301,857	12,199,395	12,647,025	9,608,756	10,599,932
Equipment/Facilities	7,250,108	9,576,799	7,760,962	10,306,940	19,566,557
Indirect Costs	57,797,080	58,052,817	63,121,334	71,046,901	76,034,068
Direct Costs	173,870,236	176,106,588	195,843,211	206,937,111	221,766,695

Princeton researchers attract funding from a broad range of external sponsors, though the primary funding source has historically been the U.S. federal government. The healthy government support (including federal and state funding) in Princeton’s sponsored programs portfolio continued in FY2024. Government funding comprises about 77% of all sponsored research expenditures at the University.

The five leading government sponsors in FY2024 were U.S. federal agencies: The National Science Foundation (NSF), National Institutes of Health (NIH), Department of Energy (DOE), Department of Defense agencies (including the Army, Air Force, Navy, DARPA, and others), and National Aeronautics and Space Administration (NASA). These agencies provided, respectively, \$79.3M, \$71.5M, \$32.8M, \$25.2M, and \$23.2M during FY2024.

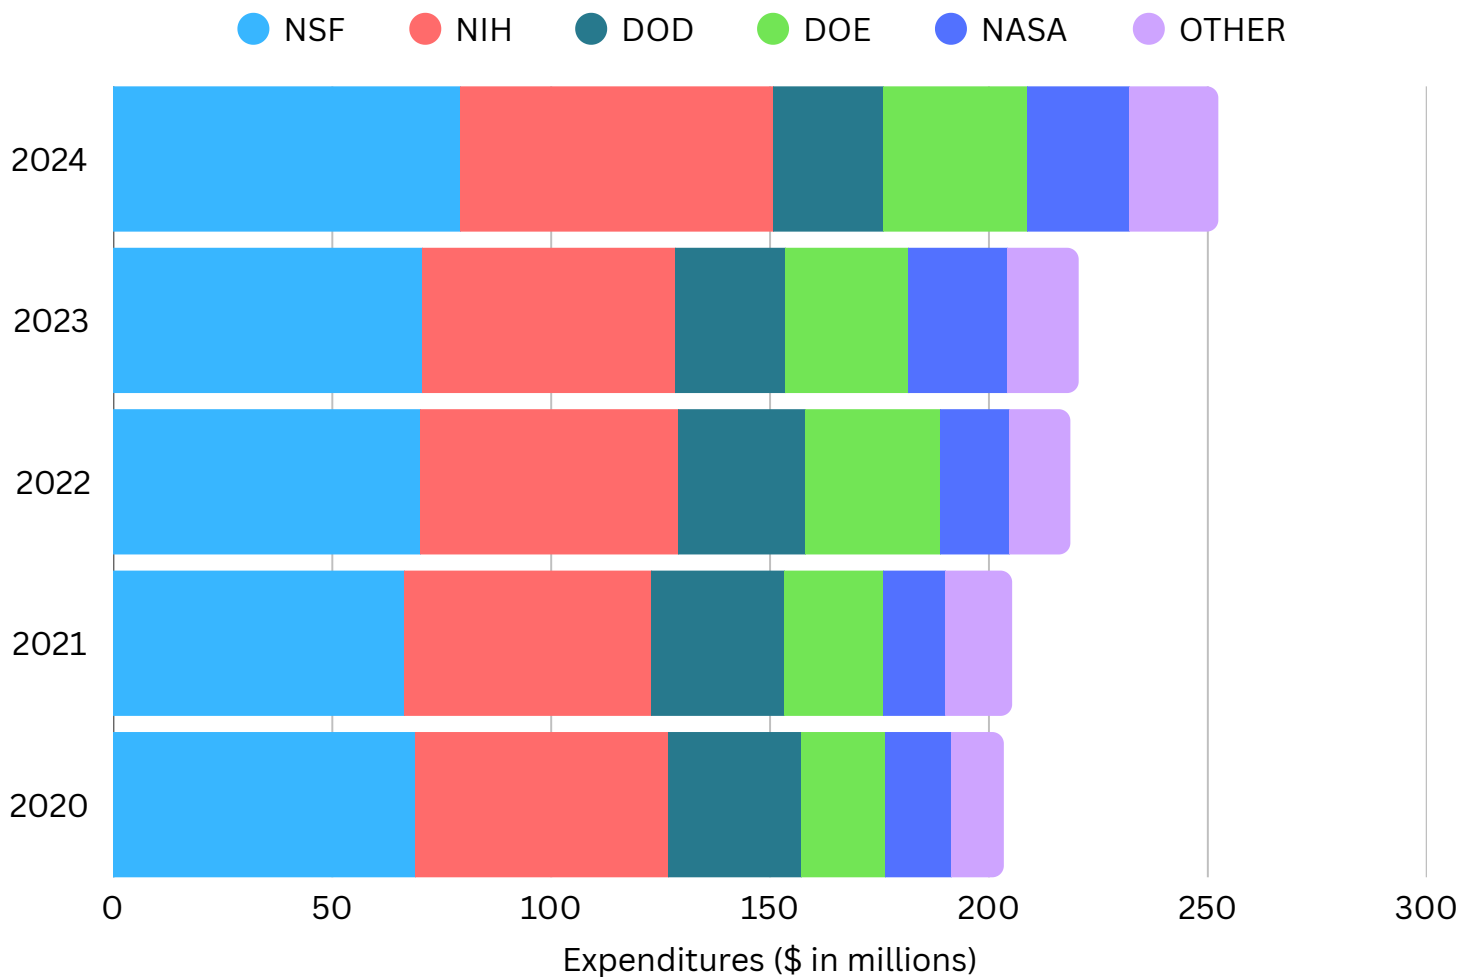

Funding Percentage by Prime* Sponsor - FY2024
(Excludes PPPL)

**Shows federally funded subawards from industry and private organizations categorized by their prime source of funds*

Comparison of Prime Government Sponsored Expenditures 5-Year History (Excludes PPPL)

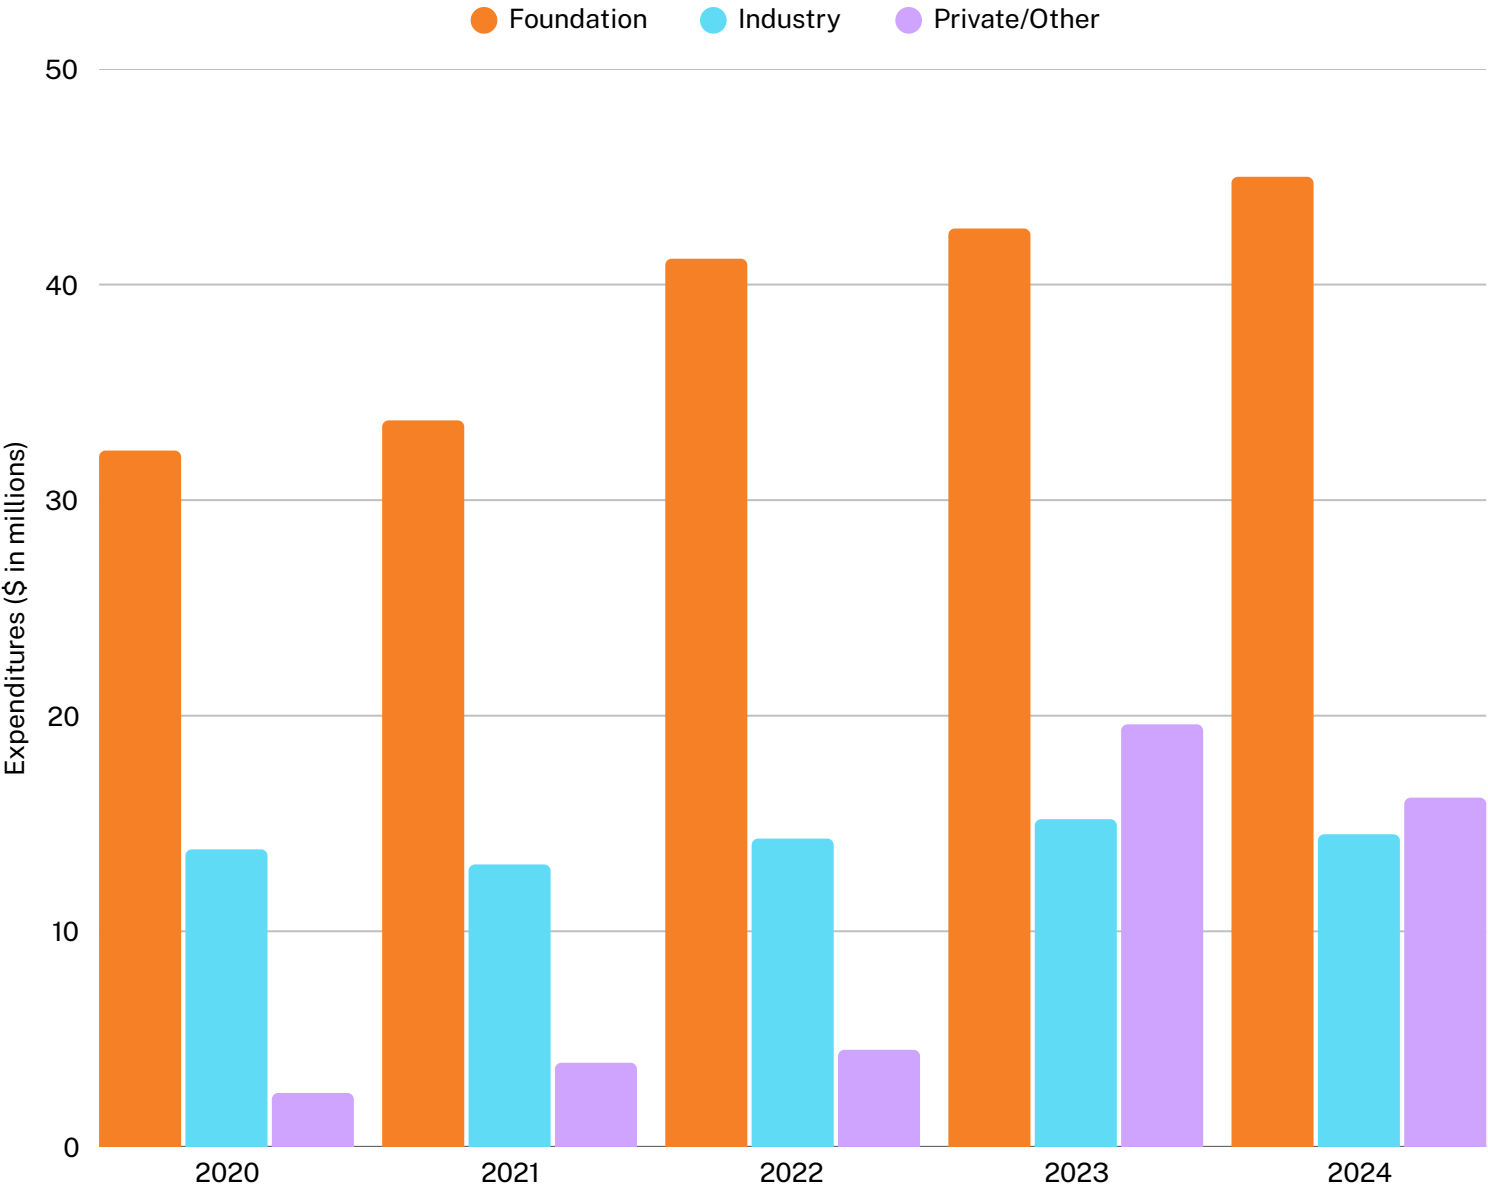

Funding from non-government sources, increasingly important to the Princeton research portfolio, comprised the balance of the total sponsored research expenditures in FY2024.

This category includes **foundations, industry, and private/other entities** (e.g., foreign entities, associations, and other sources), which together represent more **23%** of Princeton’s sponsored research expenditures. Funding from these sources was up **over 62%** compared to FY2020.

Comparison of Non-Government Sponsored Expenditures (with Funds moved to Prime Sponsor) (Excludes PPPL)

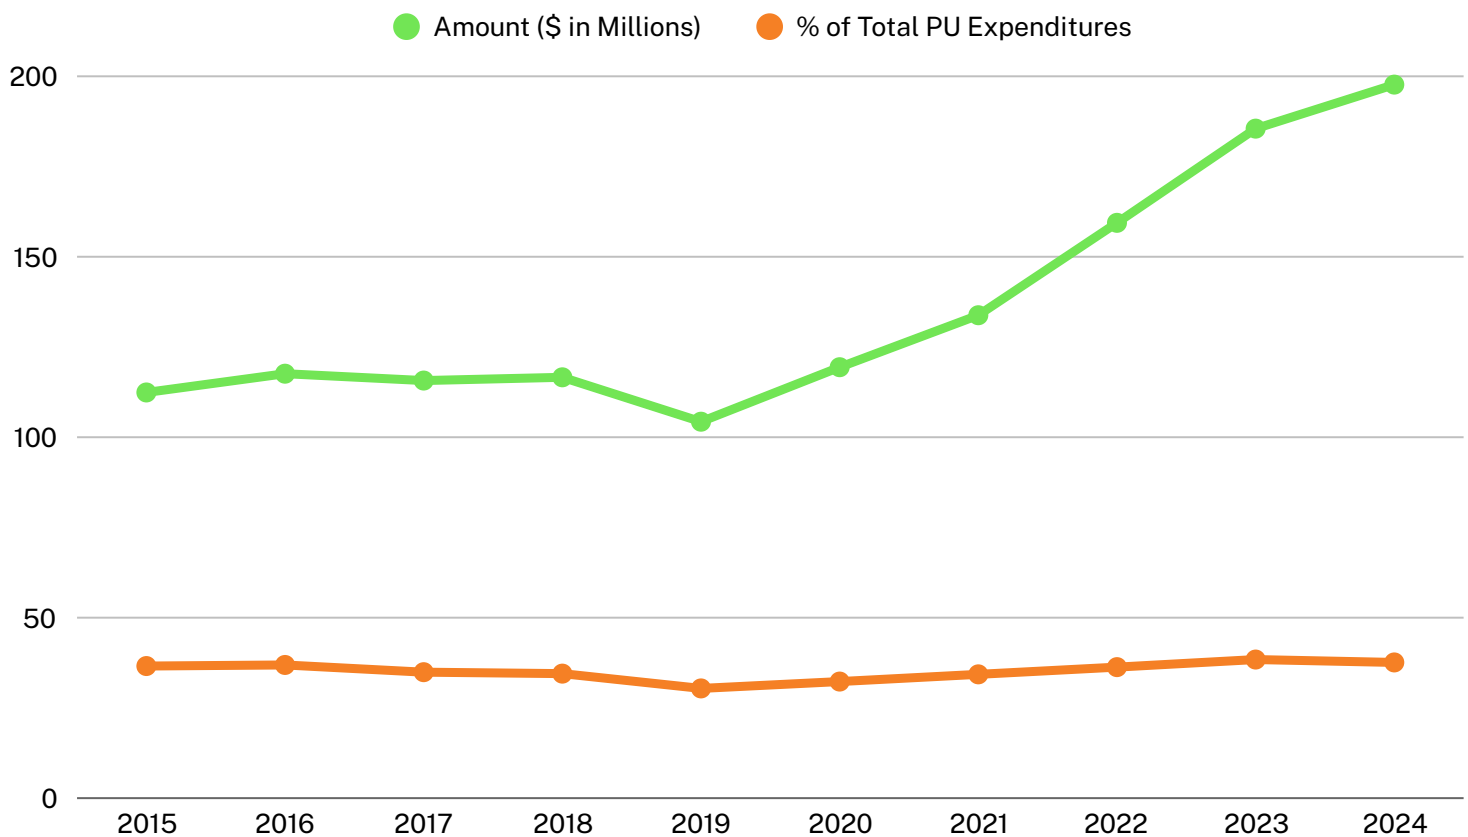

Princeton Plasma Physics Laboratory (PPPL)

PPPL expenditures, which make up approximately 38% of total sponsored research expenditures in Princeton’s research enterprise, were up almost 7%, with \$197.7M in FY2024 compared to \$185.5M in FY2023.

In this publication, FY refers to the fiscal year as July 1 – June 30, which is consistent with the dates used for campus sponsored research expenditures. In other publications, PPPL budget authorization or expenditures may be reported using the U.S. DOE (federal) fiscal year of October 1 – September 30.
